

Addressing the Strategic Determinants to Reduce Health Inequality

Claudia Marinetti, EuroHealthNet

*European Public Health Conference
November 2013, Brussels*

Overview

Funded by the EU's 7th Framework Programme (2012-2014). Focuses on three of the key drivers to reduce health inequities:

- Early Childhood Development
- Employment
- Income & Social Protection

Co-ordinated by EuroHealthNet, bringing together leading researchers, civil society organisations and businesses

Aims and Objectives

- Reviewing existing evidence
- Researching advocacy strategies
- Testing in case studies across Europe
- Developing recommendations for policy and research

Overall: To advance knowledge and policy making in the three DRIVER areas so as to promote greater health equity.

← Early Childhood Development

- ⇒ UCL Institute of Health Equity
(Scientific Lead & WP Leader)
- ⇒ Eurochild

← Income & Social Protection

- ⇒ Centre for Health Equity Studies,
Stockholms Universitet (WP Leader)
- ⇒ EAPN

Work & Employment →

- ⇒ Department of Medical Sociology
Universität Düsseldorf (WP Leader)
- ⇒ BiTC

been applied to assess health inequalities and applying advocacy to address these findings are approaches to providing advocacy for health inequalities.

Advocacy

EuroHealthNet (WP Leader), Eurochild, BiTC & EAPN

Case Studies & Recommendations

UCL (WP Leader), all partners

Third parties & affiliated research network

Third parties

- Public Health Wales (UK)
- PROLEPSIS (Greece)
- The National Institute for Health and Welfare (Finland)
- Gesundheit Österreich GmbH (Austria)
- North of England EU Health Partnership (UK)
- University of La Laguna (Spain)
- CBO (Netherlands)
- Northern Ireland Early Years (Northern Ireland)
- Children in Scotland (Scotland)
- Faculty of Sociology and Social Work – University Cluj (Romania)
- Family, Child, Youth Association (Hungary)

Affiliated research network partners (Social Protection & Income)

- Department of Health Sciences
Mid Sweden University (Sweden)
- The Norwegian Social Research (Norway)
- University of Uppsala (Sweden)
